

City & Guilds Entry Level 1 to Level 2 Functional Skills Certificates

MATHEMATICS

Be 19+ at the beginning of the academic year

Lived within the EU for the last 3 years

Live in London and earn less than the London Living Wage

You'll be offered a course that's at the correct level for you. Your maths tutor will plan activities to support you to learn new skills, understand concepts and solve problems to achieve your qualification and progress to the next level of study. The course will support you to gain employment or better employment where maths is an entry requirement. Some learners study this course so they can help their children with maths.

Benefits

- Nationally recognised Mathematics qualifications
- Further your personal and professional development
- Will vastly improve your career prospects.
- The courses will also help you to gain confidence and a positive attitude to learning. You'll be able to use your new confidence and skills in day to day life and work.

What you will learn

These courses are for you if you'd like a formal maths qualification/s for further learning or work. These accredited courses will develop your skills and confidence in the key maths topics of:

- Numbers
- Fractions, decimals and percentages
- Measurements
- Shape and space
- Using data and probability
